# Meeting's results

Monday 13 November 2023

LECOURTIER Frédérique

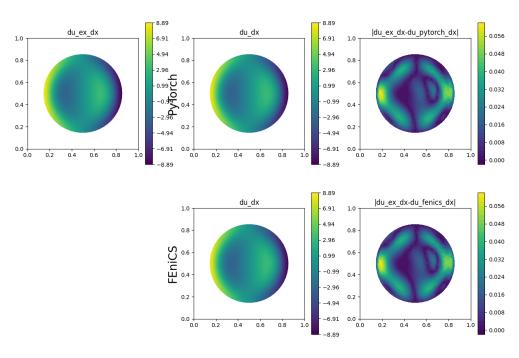

### 1 Calcul des dérivées

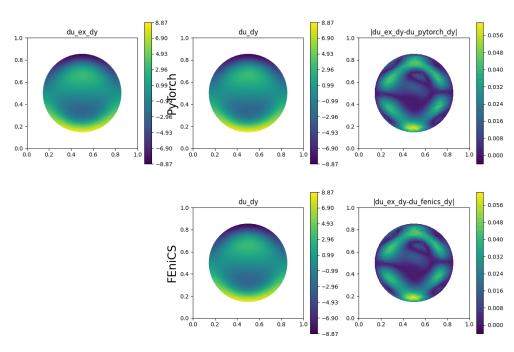

### 1.1 Entraînement du PINNs sur $\Omega$ (cercle)

#### 1.1.1 Prédiction sur $\Omega$

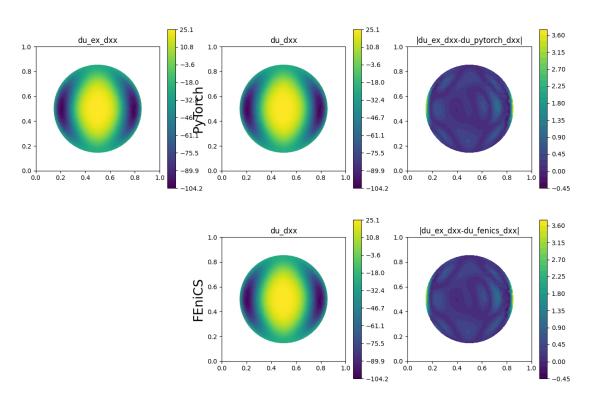

Dérivées premières :

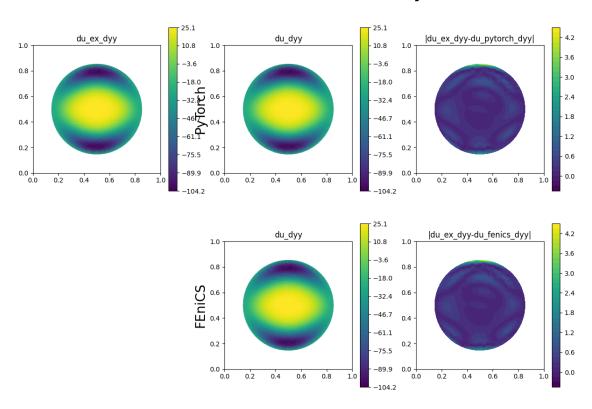

### Dérivées premières selon x

### Dérivées secondes selon x

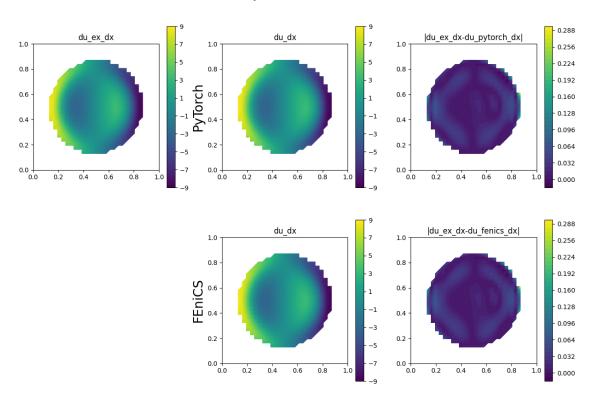

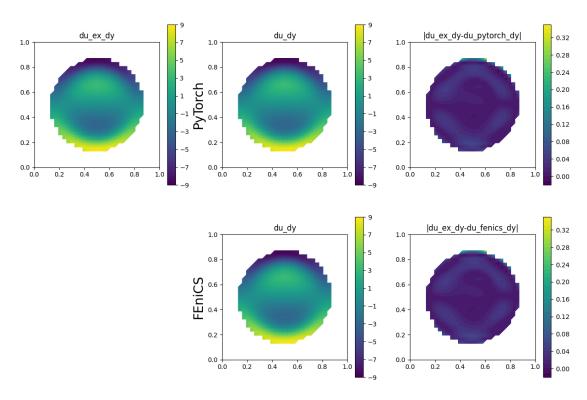

#### 1.1.2 Prédiction sur $\Omega_h$

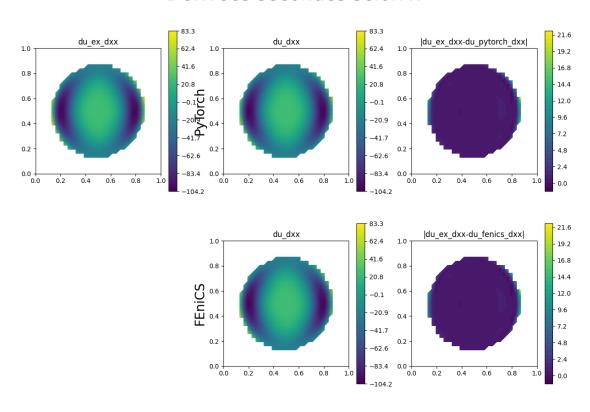

#### Dérivées premières :

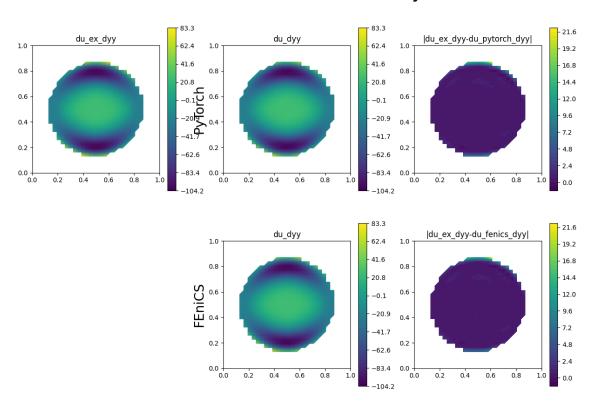

# Dérivées premières selon x

### Dérivées secondes selon x

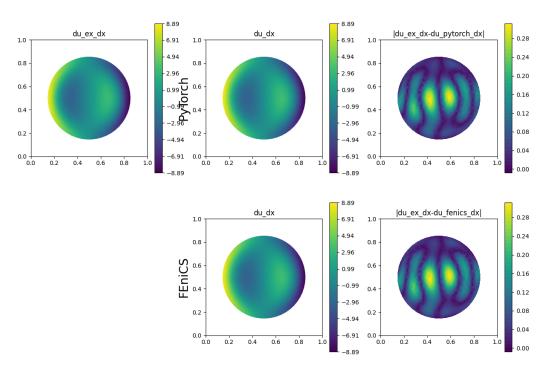

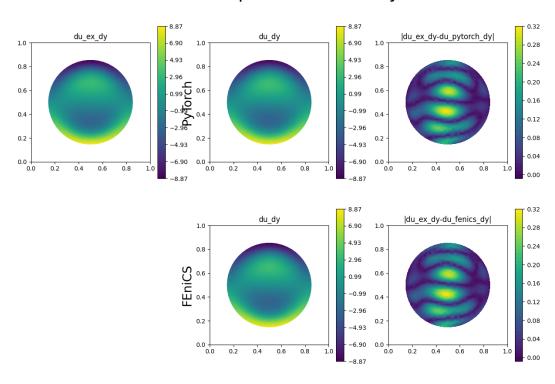

### 1.2 Entraînement du PINNs sur $\mathcal{O}$ (carré)

#### 1.2.1 Prédiction sur $\Omega$

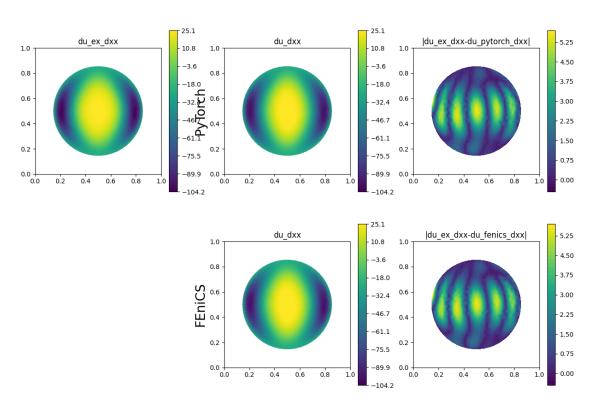

#### Dérivées premières:

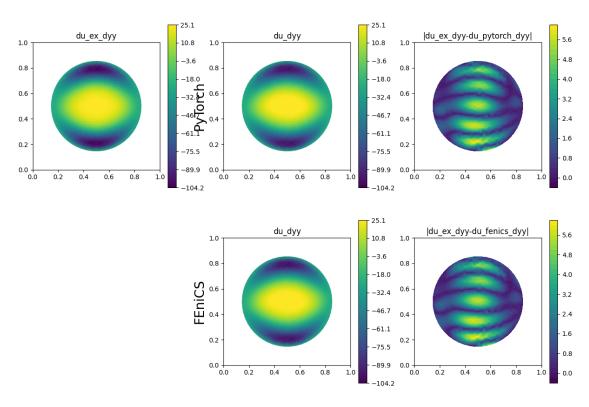

### Dérivées premières selon x

### Dérivées secondes selon x

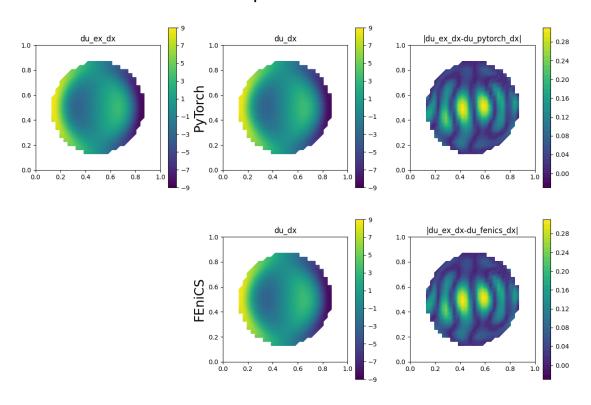

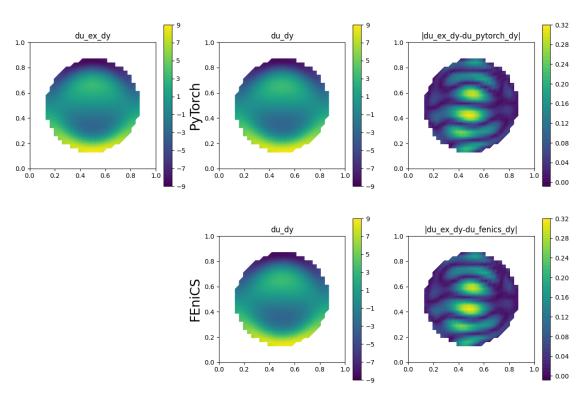

#### 1.2.2 Prédiction sur $\Omega_h$

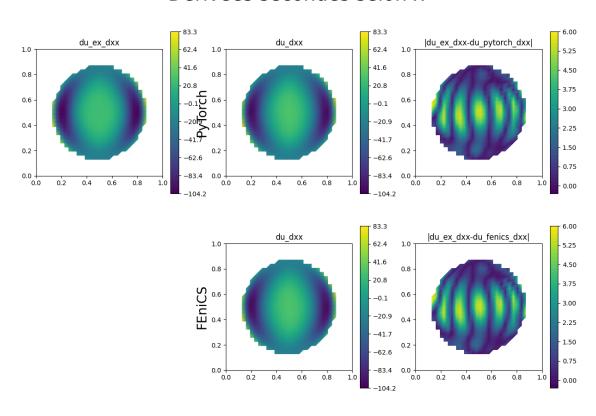

#### Dérivées premières :

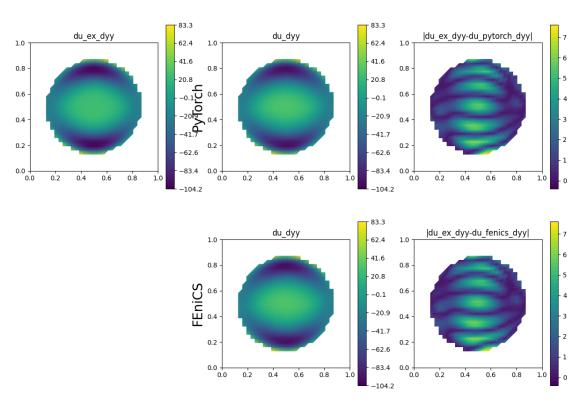

# Dérivées premières selon x

### Dérivées secondes selon x

# ${\bf 2}\quad {\bf Test\ sur\ le\ degr\'e\ de\ la\ solution\ exacte}$
